

SECRET

11 July 1966

MEMORANDUM FOR THE RECORD

1. I spoke to Alain Enthoven on the telephone this afternoon about scheduling of 11-8 and 11-3. He said that it would be welcome to have both of them, especially 11-3, a month earlier than scheduled but that he was prepared to live with the dates as they are now established.

2. I invited him and some of his people to meet with us in about two weeks to discuss the substance and approach of these estimates and of the NIPP, to see if we could be more responsive to their needs this year. We agreed to have such a meeting about the 27th of July. We further agreed that we would discuss the scheduling of 11-8 and 11-3 for 1967 at some later time.
